

## Extraction

# Hood

Do you have problems with smoke and fumes, and is it not possible to use an extraction arm?

Then a hood in galvanized construction, could be the right solution.

We offer two sizes: Hood 1200 x 1000 x 400 mm recommended airflow: 1.000-1.500 m<sup>3</sup>/h and hood 2200 x 1000 x 400 mm recommended airflow: 2.000-3.000 m<sup>3</sup>/h

Option: Can be offered with LED spots.
