

## ELECTRONIC TIMER

Two options are available: 1-120 minutes or 1-8 hours.

Running time is chosen during installation.

Pushing the button once activates the timer, and a second push turns it off. LED indicates when it is active.

The electronic timer is not compatible with the transformers VRDE or VRDT.

**Technical data:**

**Max. power:** 10 A

**Lagging current:** 2.5 A

**Switch:** Single pole, relay

**Dimensions:** 84x84x43 mm
