

Product data sheet

ProNordic S140R

118247EN-02

2021-11

Air handling units with rotary heat exchanger for commercial buildings.

Nominal air volume 1 555 m³/h against 200 Pa.

Product features

- Units kept on stock at Flexit
- Flexible impossible to order wrong variant
- · Energy efficient and silent
- · Easy control by Siemens Climatix

Automatic control

Choose between ProPanel and ProTouch control panel.

ProPanel

ProTouch

Description

Flexit ProNordic S140R is air handling units for commercial buildings kept on stock at Flexit.

Supplied as a right hand variant, but can be easily rebuilt on site to the left hand variant.

The after-heating battery (electric/water) is supplied with the units and installed on site.

The unit's compact physical dimensions simplifies transport and make the products flexible and adaptable to most installations. The flexibility gives cost savings in the event of changes in projects and makes it impossible to order wrong variant.

The units can also be ordered pre-configured as desired, but with a certain delivery time.

Easy control with Siemens Climatix by control panel ProPanel or ProTouch.

Explanation of diagram:

Sound data is specified as sound power level LwA in the capacity diagrams. (This is sound to duct.)

These values can be corrected by means of the table for the different octave bands in order to look at Lw (without adaptation to A band).

The correction table for the various octaves is stated in Lw, which means that the Lw values are after conversion of each octave for supply air and extract air.

Radiated sound from the unit must be calculated from the supply air diagram.
