

Hose for ventilation

GeoFlex Exhaust

GeoFlex Exhaust is used for extraction of exhaust gases, welding fumes etc. The hose is very suitable for our hose reels and hose lift plus our channel duct type 25. The hose can be run over to a certain extent.

Material

EPDM

Colour

Black

Length

5 - 7,5 - 10 - 15 m

Special length after request.

Temperature Resistance

170 °C. (Shortly 200 °C)

Applications

Extraction of exhaust gasses and welding fumes etc.

Properties

Super light weight

High flexibility

The outside running spiral minimizes pressure loss

Can be run over to a certain extent

GeoFlex Exhaust

Tekniske specifikationer

Art No.	Ø (mm)	Vacuum Pa.	Bend. Rad. (mm)	Weight (kg/m)
